2021 · Television comedy **NETFIX**

Review

----- **DAZ ANDERSON**

A handsome secret agent and his team of LGBTQ+ superspies embark on extraordinary adventures.
First episode date: 2 September 2021
Network: Netflix
Language: English
Program creators: Gabe Liedman, Michael Schur
Genres: Television comedy, Action fiction, Spy-fi

Best not judge this show by the trailer not give the best picture to catch people to watch it, if your fan of the Venture BROS more kind of your humor and more cheeky below the belt humor. Lot thought to make it story arc with classic a cliffhanger to reach the end he series. Some people complaint of the stereotypes but works with this kind show all the characters are being put in a positive light and very likeable as party swingers, I did think was too quick judge it the characters are being put in a positive light by not seen the show, really hope it will get 2nd series

Rated 5

"Jonny Quest" gets an irreverent but affectionate spoofing in this animated series chronicling the sometimes-hair-raising adventures of Hank and Dean Venture, the not-especially-bright twin sons of pill-popping "super-scientist" Dr. Thaddeus "Rusty" Venture. Luckily (for the most part), their safety is overseen by a security guard who uses his license to kill every chance he gets.

First episode date: 16 February 2003

Written by: Jackson Publick; Doc Hammer

Producer: Rachel Simon

----- **D ANDERSON**

Plot

Though he loved working there as a kid, Ari cannot fathom a life wasting away over rising dough and hot ovens. But while interviewing candidates for his replacement, Ari meets Hector, an easy-going guy who loves baking as much as Ari wants to escape it. As they become closer over batches of bread, love is ready to bloom . . . that is, if Ari doesn't ruin everything. Writer Kevin Panetta and artist Savanna Ganucheau concoct a delicious recipe of intricately illustrated baking scenes and blushing young love, in which the choices we make can have terrible consequences, but the people who love us can help us grow.

Love story learn what is what is what is more important in life and who in your life family and real fiends and how easy you can get caught up in your dreams. The art is wonderful and charm a different take on the coming-of-age story can be read by anyone give you a feel-good story. **Rated 5**

OTHER NAMES BUSTY ROSS

OCCUPATION GAY RIGHTS
ACTIVIST

KNOWN FOR DESIGNING THE
RAINBOW FLAG

BAKER SAW THE RAINBOW AS A NATURAL FLAG FROM THE SKY, SO HE ADOPTED EIGHT COLORS FOR THE STRIPES, EACH COLOR WITH ITS OWN MEANING (HOT PINK FOR SEX, RED FOR LIFE, ORANGE FOR HEALING, YELLOW FOR SUNLIGHT, GREEN FOR NATURE, TURQUOISE FOR ART, INDIGO FOR HARMONY, AND VIOLET FOR SPIRIT).

Hot pink		Sex
Red		Life
Orange		Healing
Yellow		Sunlight
Green		Nature
Turquoise		Magic/Art
Indigo		Serenity
Violet		Spirit

The **rainbow flag** is a symbol of [lesbian](#), [gay](#), [bisexual](#), [transgender](#) ([LGBT](#)) and [queer](#) pride and [LGBT social movements](#). Also known as the **gay pride flag** or **LGBT pride flag**, the colours reflect the diversity of the [LGBT community](#) and the "spectrum" of human sexuality and gender. Using a [rainbow flag](#) as a symbol of [gay pride](#) began in [San Francisco](#), but eventually became common at [LGBT rights](#) events worldwide.

Originally devised by artist [Gilbert Baker](#), the design has undergone several revisions since its debut in 1978, first to remove colours then restore them based on availability of fabrics.^{[1][2]} Baker's first rainbow flag had eight colours, though the most common variant consists of six stripes: red, orange, yellow, green, blue, and violet. The flag is typically flown horizontally, with the red stripe on top, as it would be in a natural [rainbow](#).

LGBT individuals and [allies](#) currently use rainbow flags and many rainbow-themed items and colour schemes as an outward symbol of their identity or support. In addition to the rainbow, [many other flags and symbols](#) are used to communicate specific identities within the LGBT community.

OH, LOOK, SUSAN, SEE THAT LITTLE BOY? HE'S GOT TWO DADS!

NO! REALLY?

HEY, LITTLE BOY. WHAT'S IT LIKE HAVING TWO GAY DADS?

OH, IT'S PRETTY GOOD I GUESS.

BUT I REALLY DON'T KNOW WHY I NEED TO KNOW SO MUCH ABOUT MADONNA. THEY EVEN QUIZ ME ON IT!

AND GLITTER CAMP IS INTERESTING. I MEAN, WHO DOESN'T WANT TO LEARN HOW TO FAB THINGS UP WITH A LITTLE GLUE AND A HANDFUL OF MAGIC?

IT IS HARD TO SLEEP DURING THE RAVES SOMETIMES THOUGH.

AND DON'T GET ME STARTED WITH MAKING ICE SCULPTURES ON SUNDAYS! I MEAN IT'S JUST BRUNCH, NOT MAMA RU'S BIRTHDAY!

WELL, WE GOTTA SKEDADDLE. WE GOTTA GO HELP SPREAD THE WORD OF OUR LORD AND SAVIOR, THE BABADOOK!

OH MY! I KNEW IT!

WHY DIDN'T YOU JUST TELL THE TRUTH?

WHAT? THAT GAY PARENTS ARE THE SAME AS EVERYONE ELSE?

WHERE'S THE FUN IN THAT?

The Bank of England's newly-designed £50 note featuring the portrait of Alan Turing

Alan Turng facts page 6

The new £50 note | Bank of England

The new £50 note. We first issued our polymer £50 on 23 June 2021. It features the scientist Alan Turing.

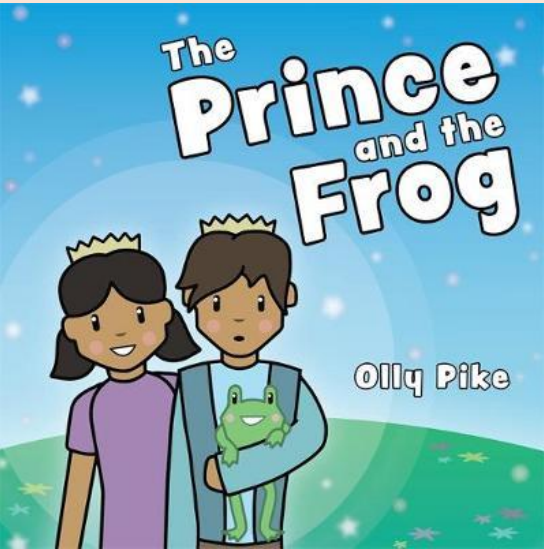

----- MIRJAM NILSSON

THANKS TO THE EFFORTS OF ACTIVISTS, HISTORIANS AND POLITICIANS, TURING’S LEGACY HAS NOT BEEN FORGOTTEN. IN 2013, HM QUEEN ELIZABETH II SIGNED A PARDON FOR TURING’S CONVICTION WITH IMMEDIATE EFFECT. SINCE THEN, THE ALAN TURING LAW HAS GONE ON TO SECURE PARDONS FOR 75,000 OTHER MEN AND WOMEN CONVICTED OF SIMILAR CRIMES.

The Bank of England £50 note is a banknote of the pound sterling. It is the highest denomination of banknote issued for public circulation by the Bank of England. The current note, the first of this denomination to be printed in polymer, entered circulation on 23 June 2021

Did Alan Turing invent the computer?

Alan Turing was one of the most influential British figures of the 20th century. In 1936, Turing invented the computer as part of his attempt to solve a fiendish puzzle known as the Entscheidungsproblem.

things you didn't know about Alan Turing

Turing

1. He was an Olympic-level runner

He participated in a few sports, such as rowing, but he loved running. Turing had “a bit of a ‘smelly trainers’ aspect” to his personality,” Hodges said. To work it into his day, he often ran to the places he needed to go. He used to run the 10 miles between the two places where he did most of his work, the National Physical Laboratory and the electronics building on Dollis Hill, beating colleagues who took public transportation to the office.

He joined running clubs, becoming a competitive amateur and winning several races. In 1948, his best marathon time was 2 hours 46 minutes 3 seconds — only 11 minutes slower than the Olympic winning time that year.

2.. ALAN TURING IS THE FATHER OF MODERN COMPUTER SCIENCE.

Turing essentially pioneered the idea of computer memory. In 1936, Turing published a seminal paper called “On Computable Numbers” [PDF], which The Washington Post has called “the founding document of the computer age.” In the philosophical article, he hypothesized that one day, we could build machines that could compute any problem that a human could, using 0s and 1s. Turing proposed single-task machines called Turing machines that would be capable of solving just one type of math problem, but a “universal computer” would be able to tackle any kind of problem thrown at it by storing instructional code in the computer’s memory. Turing’s ideas about memory storage and using a single machine to carry out all tasks laid the foundation for what would become the digital computer.

In 1945, while working for the UK’s National Physical Laboratory, he came up with the Automatic Computing Machine, the first digital computer with stored programs. Previous computers didn’t have electric memory storage, and had to be manually rewired to switch between different programs.

3.. Although Britain’s security services MI5 and MI6 have apologized for their past treatment of the LGBT community, for some it has been a long time coming.

The ban on gay men and women serving in MI5 and MI6 was in force up to 1991.

Although Turing was a WWII hero for his code breaking work, he was stripped of his security clearance after his criminal conviction in 1952. At the time, there were a series of Cold War scandals including five Cambridge-educated spies who defected to the Soviet Union

4. There were a few other inaccuracies in the film. The Bombe machine used to decipher German code was not named ‘Christopher’, after Turing’s deceased childhood friend. The first operating version of the Bombe - developed from a Polish device called the ‘Bomba’ - was actually called ‘Victory’ and Turing didn’t create the Bombe alone. Gordon Welchman, a Cambridge-educated mathematician, who later taught at the legendary MIT (Massachusetts Institute of Technology), made a significant contribution.

5. He got bad grades and frustrated his teachers

Science was a considered a second-class pursuit in English public schools in the 1920s, Hodges said. Turing’s passion for science embarrassed his mother, who had hoped he would study the classics, which was the most acceptable pursuit for gentlemen.

But he got bad to mediocre grades in school, followed by many complaints from his teachers. His English teacher wrote:

AMAZING PEOPLE

Alan Turing

Mathematician

Alan Mathison Turing OBE FRS was an English mathematician, computer scientist, logician, cryptanalyst, philosopher, and theoretical biologist. Wikipedia

Born: 23 June 1912, Maida Vale, London

Died: 7 June 1954, Wilmslow

Partner: Joan Clarke

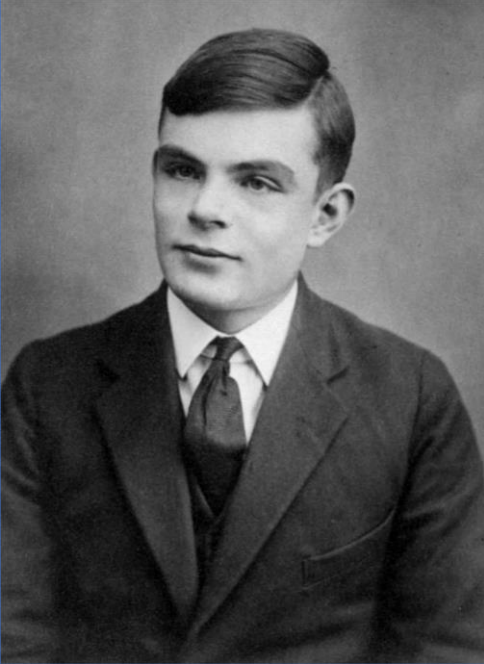

Education: Princeton University (1936–1938), MORE

Parents: Julius Mathison Turing, Ethel Sara Stoney

Siblings: John Turing

The main focus of Turing’s work at Bletchley was in cracking the ‘Enigma’ code. The Enigma was a type of enciphering machine used by the German armed forces to send messages securely. Although Polish mathematicians had worked out how to read Enigma messages and had shared this information with the British, the Germans increased its security at the outbreak of war by changing the cipher system daily. This made the task of understanding the code even more difficult.

Turing played a key role in this, inventing – along with fellow code-breaker Gordon Welchman – a machine known as the Bombe. This device helped to significantly reduce the work of the code-breakers. From mid-1940, German Air Force signals were being read at Bletchley and the intelligence gained from them was helping the war effort.

Review

----- **DAZ ANDERSON**

Realizing that they share common foes in Margaret Thatcher, the police and the conservative press, London-based gay and lesbian activists lend their support to striking miners in 1984 Wales.
Release date: 12 September 2014 (United Kingdom)
Director: Matthew Warchus
Featured song: There Is Power in a Union
Screenplay: Stephen Beresford
Awards: British Independent Film Award for Best British Independent Film, MORE
Production companies: Canal+, Proud Films, Pathé, BBC Films, British Film Institute, Ingenious Media, Ciné+, BFI Production
Great positive film with attitude with heart and warmth feeling to the soul show small change can react with people around you, a mustee film the story behind real events is just as interesting really catch real people in the film as lot home video clips exist of the gung

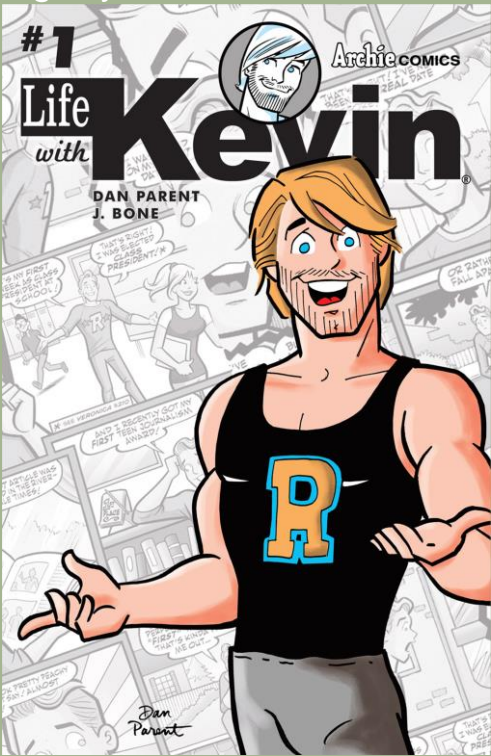

Mark was a gay activist who saw the need to forge links between the gay community and other communities. During the 1984-85 miners' strike he and Mike Jackson set up Lesbians and Gays Support the Miners and raised an amazing £22,000 for the mining families of the Dulais Valley pit in South Wales. Not only that, the contacts and friendship's they made broke down massive amounts of prejudice. Miners from Dulais were at Mark's funeral and on subsequent Gay Pride marches. Mark helped destroy homophobia among miners and increased understanding of the miners' struggle among lesbians and gays. He broke down barriers. That was his contribution to history. He was a wonderful man in so very many ways. He was much loved and is greatly missed. Chris Birch

Mark Ashton
Human rights activist
Mark Christian Ashton was a British gay rights activist and co-founder of the Lesbians and Gays Support the Miners support group. He was a member of the Communist Party of Great Britain and general secretary of the Young Communist League.
Born: 19 May 1960, Oldham
Died: 11 February 1987, Guy's Hospital, London
Place of burial: Lambeth Cemetery, London

Russell Tovey and Mike Jackson at the plaque unveiling for Mike Ashton [PICS: Simon Lamrock]

A MEMORIAL plaque celebrating the life of Mark Ashton – the political activist who founded the Lesbian and Gays Support the Miners (LGSM) in 1984 – has been installed above a bookshop in Bloomsbury.

The group’s role in supporting striking Welsh miners was made into hit feature film Pride in 2014. Mr. Ashton, who had contracted HIV, died in 1987. Other members of the LGSM were joined by actor Russell Tovey at the plaque unveiling at Gay’s the Word bookshop in Marchmont Street on Friday on what would have been Mar Ashton’s 56 birthday.

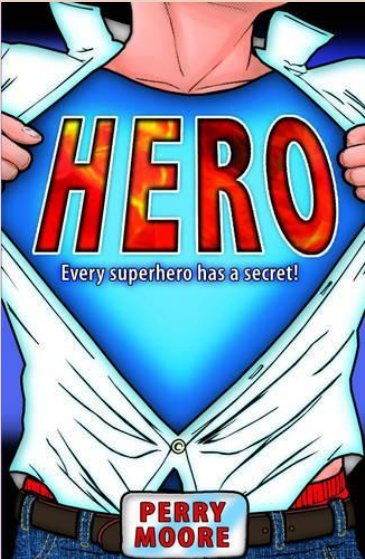

The plaque at Gay’s The Word

Mike Jackson, a founding member of the LGSM, set up a crowdfunding drive to pay for the plaque said: “To this day, Mark’s loss remains deeply felt by so many family members and friends. Driven, principled and charismatic, Mark would have achieved so much more if he had not died so young.”

Perry Moore (author)

HERO (Paperback)

Review

Plot: Even though Thom Creed's a basketball star, his high school classmates keep their distance. They've picked up on something different about Thom. Plus, his father, Hal Creed, was one of the greatest and most beloved superheroes of his time until a catastrophic event left him disfigured and an outcast. The last thing in the world Thom wants is to add to his father's pain, so he keeps secrets. Like that he has special powers. And he's been asked to join the League -- the very organization of superheroes that disowned Hal. But joining the League opens up a new world to Thom. There, he connects with a misfit group of aspiring heroes

if superheroes were in the real world this book pictures it well with every attitude you can think of, lean about other people with understanding not kick them in teeth whom try to help you and give new meaning too you can't help who fell in love with. William Perry Moore IV, widely known as Perry Moore, was an American author, screenwriter, and film director. He was an executive producer of The Chronicles of Narnia film series and the author of Hero, an award-winning novel about a gay Born: 4 November 1971, Richmond, Virginia, United States

Died: 17 February 2011, , Manhattan, New York, United States
